Start with the WHY

Each and every human life has value and meaning. Regardless of the notion of disability, each person has the potential and the right to lead a full, productive, and personally meaningful life. A life of quality includes friends and loved ones. A life of quality includes full participation in the cultural, civic, and spiritual affairs of the community. Families and communities are stronger when all of their members are accepted and valued for their contributions.

Stay true to the Vision and Mission

A strong and vibrant community is one in which all of its members contribute their strengths and assets to the common good. Tierra's mission is to empower people with disabilities to fulfill their potential and desire to become productive citizens who are accepted, included and valued for the contributions they make to the economic, civic, and cultural vitality of our community. We are actively working toward the day when people with any type of disability are fully recognized as an integral part of our community – as neighbors, co-workers, and contributors.
