My child has autism...

My child's behavior may be surprising to you....
She/he may have difficulty with:

- ◊ Speech
- ◊ Social interactions
- ◊ Behaviors that can last a long time, this can include, but is not limited to:
  - • Hitting • Kicking • Headbutting • Screaming • Spitting

While we support our child's right to live in this community, we always consider the needs of others too. Thank you for your patience and understanding.

You can find more information about autism at:
