Southern California

Presenting the 3rd webinar in the 2015 Policy Issues in Developmental Disability Series

Common Core and Special Education What Families Need to Know

Tuesday, April 14, 2015
10:00-11:00 a.m. PDT

Schools frequently talk about Common Core, but parents may have questions about how it is relevant their children with special needs.

Join us to learn:

- What is Common Core, and why was it adopted?
- How does it relate to special education?
- How does this affect my child's IEP?
- What kinds of accommodations can be written into the IEP in order to help my child succeed with Common Core?

This FREE webinar is designed for family members, people with developmental disabilities, and advocates. It will include a presentation and Q & A session. Professionals are welcome to attend; however, questions from family members and consumers will be given priority.

Speaker Kevin Schaefer is the Assistant Director of Special Programs with WestEd's Center for Prevention & Early Intervention (CPEI).

Please register by 5:00 p.m. PST on April 13, 2015 at:
